# DOOR FRAME

At ASHIRVAD TIMBER we provide Ready-made 1st Quality Wood Door Frame

for making Doors Frame, Window Frames Etc.

ASHIRVAD TIMBER offer all finished wood frame like Mahogany, Red Meranti, Honne, Teak Wood etc. which is unmatched with comparison to the competitors in the market.

We ASHIRVAD TIMBER use only Utilize kiln-dried or properly seasoned wood to reduce the risk of cracking and warping caused by uneven moisture content.

We ASHIRVAD TIMBER is very serious about quality. That is why before supplying all frames we apply a coat of paint, like in front of side we apply wood warnish or wood primer and on back side black tar. for protecting termite, season effect, cracking etc.

At ASHIRVAD TIMBER we provide Ready-made Teak Wood Door Frame of 1st Quality Teak Wood for making our Doors, Window Frames and window shutters. ASHIRVAD TIMBER offer finished Teak wood frame which is unmatched with comparison to the competitors in the market.

Some of the characteristics of Teak Wood are:-

- Teak's natural properties ensure it has good resistance to rot.
- These trees produce high amounts of oil to protect themselves from hot, moist environments and pests.
- Teak wood's durability, beautiful colouring, and strength make it a prized and Premium wood.
- It gets a fair amount of use indoors for furniture, flooring, interior, and carving too.
- It is easy to do carving, polishing and staining on The Teak Wood without any issues.
- We offer Wood which is uniform in color and well-seasoned which would let you effortlessly perform various kinds of jobs.
- It has great properties to withstand extreme climatic conditions.
- Manufacturers can shape teak wood according to your needs without any issues.
- Choosing high-quality teak wood frames ensures that they do not rot and are not affected by changes in temperature. There will not be any scope for condensation as teak wood is a bad conductor of heat and electricity. One can effortlessly prepare beautiful wooden frames. You can paint and polish wooden frames as per your needs.

A WPC door frame is a Wood Plastic Composite door frame, It is made by combining wood fibres and thermoplastic(s). This manufacturing process creates a material with characteristics of both wood and plastic, resulting in a durable and versatile product.

WPC frames are designed to be highly durable and resistant to common issues faced, such as warping, cracking, rotting, termites, and other insect damage. This leads to a longer lifespan.

WPC is specially design for Toilet Door Frame. WPC frames are non-porous and do not absorb moisture, making them an excellent choice for areas with high humidity or exposure to water, like bathrooms.

Some of the characteristics of WPC Frame are:-

- WPC require minimal maintenance, eliminating the need for frequent painting, polishing, or termite treatments.
- WPC door frames are often made from recycled wood fibers and thermoplastics, reducing the demand for natural wood and promoting sustainable building practices.
- WPC Is 100% Water Proof, Termite Proof and Eco Friendly and also never Bend & Crack that gives your toilet door frame life time sustainability.
